Bengal College of Engineering and Technology
2019 - 2023

Senior Secondary (XII), Science
Bidhan Chandra Institution
(WBCHSE board)
Year of completion: 2019
Percentage: 65.00%

Secondary (X)
St. Xaviers School, Durgapur
(ICSE board)
Year of completion: 2017
Percentage: 75.00%

INTERNSHIPS

Full Stack Development
The Sparks Foundation GRIPS, Virtual
Mar 2021 - Mar 2021

Could not complete project due to some personal problems and no proper community support and environment sitting back at home. Even there was no one to help me with and complete my work.
I have some pretty projects other than doing there on my own.

PROJECTS

Machine Learning Model
Jul 2021 - Jul 2021
https://github.com/Chittadeep/MachineLearning

A prediction Machine learning model on Linear Regression in one variable algorithm created in Jupyter Notebook.(Python)

My first Machine learning model till date it is, as I am trying to learn more about it.

Covid Tracker App
Jun 2021 - Jun 2021
https://github.com/Chittadeep/covid_tracker
A Flutter project.

This Project was made for the Project Exhibition Hackathon arranged by BCET(Bengal College of Engineering and Technology, Durgapur

Data
Source(API):https://api.apify.com/v2/datasets/yXRydTnxekeRagGfW/items

Personal Portfolio site
Jun 2021 - Present

https://chittadeep.github.io/resume/

Website made using frontend(HTML, CSS) skills to show off my resume, project works and experience.

Banking Application

Oct 2020 - Present

https://github.com/Chittadeep/Banking

A banking dynamic website made using J2EE, Html, CSS and MySQL.
Adding Features to it whenever something comes to my mind.

Messenger App

Mar 2020 - Present

https://github.com/Chittadeep/MessagingApp

A failed project which I tried to make without knowing the proper technology in Android.

E-Commerce

Jul 2021 - Present

https://github.com/Chittadeep/e-commerce

An E-Commerce app being created with HTML, CSS, JAVASCRIPT & PHP.

Renting

May 2021 - Present

https://github.com/Chittadeep/renting

A Cross-Platform app being created with flutter to serve as the place for getting homes on rent. Learning new things as it gets updated every time.

Stuck on the problem of integrating the google Sign-In API and other Firebase for backend.
